

House Inspection Chambers

The House Inspection Chambers (HIC) manufactured by Ennstone Concrete Products are manufactured to BSEN 1917:2002 and BS5911-2:2002 and are available in four sizes: 600x450, 750x600, 1000x675 and 1200x750.

Used when building the drainage for housing, they are produced with a tongue and groove joint and can be sealed using tokstrip and primer, which is available from the Concrete sales team on 01952 502772.

drainage fencing rail

Description Units mm		Weight per unit kg**	No of units per pallet
