# Centurion Unigrate

## A new look grating that's worthless at a glance

You can see why a Centurion Unigrate grating has no scrap value simply by looking at it - so can a thief!

Made of a high-strength, composite material, it won't fetch a penny in the scrap yard ... so it won't be stolen. It's tough enough to look after its self.

Centurion Unigrate comes in one standard so its simple. Cut to size 'on-site', a Centurion Unigrate grating will match the size of the original gully frame every time, so you won't cut up the road and are simple to fit, designed as 'direct replacements' that drop straight into place.

Add the fact that it takes five minutes to install, and you'll see a gutter without Centurion Unigrate is worth looking into.
