

INTRODUCING

Centurion Plus Access Chamber System

The market leader in Access Systems for Street Lighting, Traffic Signals and the Communications industry, the Centurion Access System was successfully developed for acceptance by the water, rail and CCTV sectors.

Civils and Lintels, together with RDT Chamber Solutions, have developed a groundbreaking, freestanding, stackable chamber system complete with an integral cover, 150mm deep sections, removing the need for a costly, traditional steel or ductile iron frame.

Features:

- No need for traditional galvanised or ductile frame support
- No need for concrete thus eliminating cost and time during installation
- Rebated chamber design enables B125 cover to fit flush with chamber
- Decorative concrete, block paviors, slabs etc can be laid directly alongside the chamber creating a polished, surface level finish
- Complete system manufactured from mixture of thermoset moulding compounds
- Central removable beam where necessary

Benefits:

- Complies with health & safety requirements - 'one or two man lift'
- Much stronger than typical thermoplastive alternatives
- Resistant against aggressive soil conditions
- Performs against diverse temperature changes -40 degsC to +140 degsC, will not soften by heat or brittle by frost
- Duct entries are knock-outs - no need for drilling
- Supplied flat-pack for transport cost savings or fully assembled if required
- Composite covers have anti-slip design and are supplied locking as standard
- Telemetry reading can be made directly through the composite cover

Applications:

- **STREET LIGHTING**
- **TRAFFIC SIGNALS**
- **CCTV**
- **TELECOMS**
- **WATER**
- **GAS**

Sizes (mm)
290 x 275 x 150
450 x 300 x 150
450 x 450 x 150
600 x 450 x 150
600 x 600 x 150
900 x 450 x 150
900 x 600 x 150
1200 x 450 x 150
1200 x 600 x 150
